ENTerview II®

Cordless Examination Headlight

The ENTerview II® is a compact, cordless headlight which overcomes the need for connection to a fibre optic light source, separate battery pack or transformer, and hence increases freedom and mobility.

The balanced design of the ENTerview II® headlight permits comfortable use during longer periods of time.

The light emitting diode (LED) provides enough light for a regular outpatient session.

The ENTerview II® is a versatile aid that is suitable for use in ENT, plastic surgery, gynaecology, maxillo facial surgery etc.

Product codes:

670500	Enterview II® headlight
671160	Fast battery charger with Euro plug
671181	Power cord UK plug for battery charger
671182	Power cord US plug for battery charger
